Motion made by (7) seconded by (2) to approve the June 15, 2015 as submitted. Motion carried.

A-Correspondence Received

A-1 Memo from Daniela Enkelmann dated 7/13/15. Re: Questions regarding electronic signatures. (Dist. 4)

Assistant Attorney General Peter Huntsman advised the Board that the regulation is very clear that electronic seals and signatures are permitted for professional engineers and land surveyors. If it has the electronic seal and signature, then it is considered a signed and sealed document.

However, the architect regulation is different, where it doesn't allow you to submit the electronic signatures. If you can submit the document electronically then it is acceptable, but you cannot print out an electronic document and use that document as is, without a live signature and seal under the architects regulation.

Mr. Redniss advised the Board that the approved programs are Blue Bam, DocuSign and Adobe.

Chairman D'Andrea questioned why the architect regulations are not consistent with the engineering and land surveying regulations. Attorney Huntsman surmised that the regulation process did not go through the regular process and may have gone through the state librarian instead of the attorney general's office. Mr. Smith stated that this may present problems in the future.
